

RediGrains

Shelf Stable Ready-to-Eat Grains, Quinoa, Lentils, Beans, & Rice

The Good Stuff

RediGrains check key boxes within the natural/organic category: clean label, plant-based, whole food, minimally processed

Fully-Cooked & Certified Ready-to-Eat

Zero preservatives or additives—unless you count water. Or sea salt, if requested.

Shelf Stable Packaging Options

Shelf Life is 1 year unopened, 2 weeks opened under refrigeration

All Items are Non-GMO & Certified Vegan

Over 100 USDA Organic & Conventional items are available, with or without added sea salt

RediGrains are customizable to fit your application

Why it Matters

Health and wellness foods are increasing in demand with innovative value-added versions growing even faster

Zero labor is a big deal as wages keep rising, as are training and equipment costs. RediGrains help you manage all of those issues without sacrificing product quality

The ingredient deck can't get any cleaner

RediGrains ship and store without refrigeration, saving cooler and freezer space

Reduces shrink while offering more ordering flexibility

A plus for some customers, but mandatory for others

More choices available from one vendor

Flexibility to support your specific needs
